**FOR IMMEDIATE RELEASE**

## **DBM Joins Pro-Sound NYC**

**October 15, 2018**– New York, NY

For many years, DBM has been a tried and true source for Audio repairs. In an age of shrinking brick-and-mortar, remote service or no service at all, that DBM has retail/storefront space in the heart of Manhattan. On September 1, 2018, DBM has become part of the growing Pro-Sound NYC family.

Located at 320 W. 37th St., New York, NY, DBM is convenient for not only clients in Manhattan, but the tri-state area. DBM Pro Audio Services was founded in 1987, serving the Recording Studio and Music Industry in Manhattan. An integral part of the DBM team is John Frondelli, who has been DBM General Manager, has been at the forefront of repairs and restorations for artists including U2, Bon Jovi, Bob Dylan, The Who, Lenny Kravitz, Kings of Leon and Arcade Fire. Frondelli, a musician himself, is passionate about the needs of his clients. When asked his thoughts on becoming part of the Pro-Sound NYC family, Frondelli responded "I am very excited about the new merger of dBm Pro Audio Services with Pro-Sound NY. The one-stop availability of sales, rentals, and factory-authorized service, offers real value, convenience, and end-to-end support for the booming Pro Audio and AV industries here in NYC. We will be expanding into other areas of service, as well as continuing and improving our well-established MI services, with a brand-new facility, and a fresh new look on the web, plus a storefront presence, conveniently-located at the same address we've been at since 1996. This is the first business of its kind in the Big Apple."
