

FOR IMMEDIATE RELEASE

SUMITOMO ELECTRIC LIGHTWAVE TO SHOWCASE SPACE-SAVING SOLUTIONS AT BICSI WINTER 2018

1/30/18 Orlando, FL – Sumitomo Electric Lightwave (SEL), a group company of Sumitomo Electric Industries, will display several space-saving solutions at BICSI Winter in Orlando, Florida. Promoting a theme of solving complex networks with simple solutions, SEL will feature new products from its 4th Level[®] Data Center Solutions and FutureFLEX[®] Air-Blown Fiber product portfolios.

BICSI Winter will start February 5th and run through the 7th at the Orange County Convention Center. SEL will exhibit at booth 409 in the West Concourse.

Featured products on display at BICSI Winter include:

- **PrecisionFLEX[®] 864F Preterminated Panel** – Industry-leading density of 288LC connectors per 2RU
- **Fiber Optic eXchange (FOX) Cassette** – Eliminates the need for splice trays and allows for quick cable termination.
- **High Density Cassette** – Change polarity in the field with rear MPO adapter and fit double cassettes in one LGX format.
- **FutureFLEX[®] 24-Tube Cable** – Adding an additional 26% of fiber density to existing air-blown fiber tube cables.
- **Freeform Ribbon[®] Outdoor/Indoor Halogen-Free Cable** – allows for dense fiber packing and a small cable diameter with a non-preferential bend axis
