Further to last year's success with the *Bloom Beautiful* tabletop range, Australian Licensee Ashdene have extended Shell's licensing programme with second product line featuring Shell's *Birdsong* collection. Beautifully packaged in carefully designed gift boxes, the collection features watercolour birds in a simple but stylish colour palette of pinks, golds and greens, making *Birdsong* a unique addition to Ashdene's elegant High Tea collection

Shell Rummel's work is available for licensing in all product categories. For further information please visit MGL in stand J0.
