

A Connected World, Unplugged™

Corporate Fact Sheet

- Founded:** April 2016
- Business:** PowerSphyr designs wireless power products and modules that eliminate the need for cables or precise coil alignment, enabling fast and easy to use charging solutions that have elegant industrial design and flexible form factors.
- Funding:** PowerSphyr is a privately held company that is currently raising \$10m in a Series A round. Major investors include Faurecia at \$4M and ON Semiconductor with \$1M.
- Corporate Office:** 4115 Blackhawk Plaza Circle, Suite #100, Danville, CA 94506
- Markets:** PowerSphyr designs, develops and delivers solutions for the Automotive, Industrial and Consumer markets. Current addressable market is \$2.3b with a CAGR of 23% (iHS 2018 Wireless Charging Report).
- Product Overview:** PowerSphyr is the only company that develops in the 3 key platforms for wireless power: Magnetic Inductance (Qi); Magnetic Resonance; and RF (radio frequency). In addition, they provide complete backward compatibility for existing wireless power protocols. All technology is supported by a portfolio of wireless power patents. A recently granted patent covers simultaneous near-field and far-field multi-mode wireless charging.
- Products:** **SkyCurrent III** —consumer smartphone battery case and wireless charging pad eliminates the need for precise alignment between the smart device and the pad. The PowerSphyr solution delivers AirFuel MR fast charging, and is seamlessly backwards compatible for existing Qi enabled smartphones and chargers. This is a complete solution (transmitting pad & phone sleeves) that can simultaneously charge multiple phones across both wireless technologies at a fraction of the announced Apple AirPower product.
- SkyCurrent Power Analyzer (SPA):** extensible battery management solution (BMS).
- Management:** Neil Ganz – Co-Founder, President and Chairman of the Board
Will Wright – Co-founder and Chief Technology Officer
Dr. Ron-Chi Kuo – Director of Systems Architecture
Jim Wogan – Chief Financial Officer
Brad Miller – Senior Vice President of Engineering
Bill Lombardi – Chief Information Officer
