

Experience the Future of Wireless Charging!

PowerSphyr's SkyCurrent III: Delivers Seamless Dual Mode Wireless Charging Platform

PowerSphyr's SkyCurrent III is the ultimate wireless charging platform delivering its dual-mode wireless charging pad and a suite of 'fast charging' battery cases. It is a complete solution – transmitting pad & power sleeves – that supports AirFuel Alliance's magnetic resonance for 'fast charging' and Wireless Power Consortium's Qi technology. SkyCurrent III can simultaneously charge multiple phones at a fraction of the price of the announced Apple AirPower™ product.

Dual Mode Charging Pad

Dual Mode Charging Sleeves

PowerSphyr's SkyCurrent III charging pad can simultaneously fast charge two MR enabled smart phones, or one MR and one Qi phone. The charging pad delivers true 'drop & go' benefits of:

- **Fast Charge compatible:** Leverage PowerSphyr's iPhone and Galaxy MR compatible battery case to 'fast charge' your smart device at up to 12 Watts or charge Qi enabled iPhones or Galaxy devices at up to 7.5 Watts
- **Safe and worry-free charging:** You can feel secure leaving your phone on the PowerSphyr III charging pad. Its dual-mode fail-safe circuitry prevents over-charging
- **Fast Charge compatible:** Leverage PowerSphyr's iPhone and Galaxy MR compatible battery case to 'fast charge' your smart device at up to 12 Watts or charge Qi enabled iPhones or Galaxy devices at up to 7.5 Watts
- **Power indicator:** indicator light shows when power is on

SkyCurrent III wireless charging sleeves support both AirFuel MR and WPC Qi charging technology. The sleeves provide optimal MR performance, as well as being compatible with embedded Qi technology in many new cars, furniture and retail establishments like your corner coffee shop. Key benefits of the charging sleeves include:

- **Flexible format:** compatible with Apple iPhone 7 & 8; and Samsung Galaxy S9
- **Fast Charge MR capability:** 'fast charge' your phone at up to 12 Watts
- **Backup battery reserve for extended use:** reserve battery more than doubles phone life
- **Backup Battery Monitor:** multi-color 'fuel gauge' indicator shows battery reserve
- **Lightweight and flexible charging options:** wireless charging or tethered charging via USB-C
- **Safe and worry-free charging:** fail-safe circuitry prevents over-charging
