

PHILIPS

Philips High Speed Power Blender

Create deliciously smooth and finely blended results with the **Philips High Speed Power Blender**. Powerful motor and blades pulverize both soft and hard ingredients in seconds for a deliciously smooth and finely blended results with just the touch of a button.

Powerful Enough to Blend an Avocado Seed

- **Pulverizes ingredients in seconds:** A powerful 1800-watt/2.4 horse power motor and uniquely-designed blades spinning at 35,000 revolutions per minute easily pulverize hard ingredients, including unwanted seeds and stems, resulting in a blend that is smoother and finer compared to other leading high speed blenders*
- **Blends hard or soft ingredients:** ProBlend Extreme technology is powerful enough to blend through softs fruits or hard seeds and nuts – it's even powerful enough to blend an avocado seed

Easy to Use Modes

- Digital IU Screen has five pre-programmed modes for smoothies, frozen desserts, soups, nuts and ice crushing to create a versatile mix of delicious drinks and meals with just one press of a button
- From a gentle blend to a quick burst of power, the manual mode allows users to select their ideal blend with variable speed options

Conveniently Fits into Any Home

- **Enjoy your morning smoothie quietly:** Noise comfort dome minimizes blending noise, making it two times quieter than a traditional countertop blender**
- **Easy to clean:** Blender jar is dishwasher safe for easy cleaning

Availability: WilliamsSonoma.com, Amazon.com and Philips.com for an MSRP of \$599.95.
