Validic is the healthcare industry's leading digital health platform for convenient and quick access to patient data from mobile health and in-home clinical devices, wearables and applications. By connecting its growing base of customers (that includes providers, pharmaceutical companies, payers, wellness companies and health IT vendors) to the continuously expanding list of digital health technologies, Validic enables healthcare companies to better coordinate care across their communities, improve their patient engagement strategies and more efficiently manage their patient populations. Validic's leading global digital health ecosystem reaches over 160 million lives in 47 countries and continues to grow daily.

## Trusted by hundreds of clients:

### Validic Saves You Time

You can deploy Validic in hours, not months or years, allowing you to keep up with the pace of change occurring in healthcare.

### Validic Saves You Money

Validic saves you up to 90% per year on the cost of building a comparable system yourself.

### Validic Enables Focus

Validic handles device vendor relationships, adds new integrations, and makes sure the data is correct before it gets to you. This allows your team to focus on your core priorities.

More and more companies are choosing Validic to help them accelerate their strategic digital health initiatives.
