

Media Invitation: Meet Ziehm Imaging at the virtual RSNA 2020

Dear media partners,

Please find below some information on the Ziehm Imaging presence at the virtual RSNA congress from **November 29 to December 5**.

Ziehm Imaging showcases on its leading portfolio of mobile C-arms and advanced pre- and intraoperative image-based decision support solutions on its virtual booth.

Highlights on display include:

- **Powerful combination for advanced 3D intraoperative navigation:** the fully motorized Ziehm Vision RFD Hybrid Edition¹ and the patented EndoNaut fusion technology by Therenva provide physicians with optimal guidance during endovascular interventions
- **Ziehm Vision RFD 3D sets standards with an installed base of close to 1,000 systems:** the Ziehm flagship model is ideally suited for high-end orthopedic, trauma and spinal interventions as well as for highly specialized maxillofacial and cochlear procedures
- **First mini C-arm family for pediatric imaging:** the Orthoscan TAU systems are the first mini C-arms in the market approved for pediatrics

Visit the Ziehm Imaging & Orthoscan booth on the RSNA virtual exhibition floor via ebooth.ziehm.com. The virtual booth offers a guided tour, product videos and much more on the proven Ziehm Imaging C-arm portfolio and the Orthoscan TAU product family.
