AR Appoints Distributor For Australia And New Zealand

Scientific Devices To Represent AR

Souderton, PA — May 12, 2020 — AR RF/Microwave Instrumentation has named [Scientific Devices](#) as its distributor for Australia and New Zealand.

AR, a world leader in EMC and RF test equipment for more than 50 years, is pleased to be represented by a company that also has a 50-year reputation for the highest quality service. Scientific Devices, founded in 1970, has expertise in a number of technologies and currently serves the following markets:

- Telecommunications
- Defense & Aerospace
- Electronic Design & Manufacturing
- Education
- Power & Energy
- Research & Development
- Automotive & Industrial Manufacturing

Scientific Devices represents manufacturers throughout Australia and New Zealand from its headquarters in Melbourne and a field office in Sydney. Known for providing clients with the latest product knowledge and information, as well total support, Scientific Devices makes an ideal partner for AR.

About AR

AR supplies a multitude of unique, high performance RF solutions to organizations around the world. We are celebrating our 50th anniversary and continue to offer equipment with technological industry breakthroughs on a consistent basis. The company's unlimited support network reaches the far corners of the globe. When users purchase from any AR company they have the peace of mind that comes from knowing the global leader will be there to help with any problems today, tomorrow, and always.
